/Who am I?

I'm a Brazilian-Luxembourgish Frontend Developer with over 2 years of hands-on experience creating responsive and user-friendly web interfaces tailored to business needs. Skilled in modern tools and frameworks like TypeScript, React, Next.js, and Figma, I'm passionate about optimizing performance and creating seamless user experiences. I thrive in collaborative, fast-paced environments, and I'm always eager to keep learning and growing to help drive team success.

/work experience

Junior Web Developer

Fiveoffices   **08/2022-08/2023**

- **Internationalization Project:** Enabled multi-language support by converting hardcoded text into a JSON-based translation structure, allowing easy addition of languages and expanding the site's global reach.

- **Website Redesign:** Partnered with product, design, and development teams on a complete site redesign, contributing to the adoption of a React and Vite frontend stack for improved performance.

- **Dynamic Component Development:** Built dynamic, responsive components in React, gaining experience in a fast-paced environment and adapting quickly to feedback from senior developers and stakeholders.

Frontend Developer

Joivy (Former Roommate)   **09/2023 - present**

- **New Brand Launch:** Contributed to the completion of Joivy's new website by building dynamic React components and refining details for the brand's official release.

- **Legacy Site Maintenance:** Took responsibility for updating an older PHP-based site, implementing new sections, optimizing images, and improving performance for a smoother user experience.

- **Frontend Unification Project:** Helped unify design across multiple sites by building React components for a new design system in Storybook, using Vite, Tailwind, and Radix-UI for efficient, cohesive branding across the Joivy group.

/education

Full Stack Web Developer

Coding Jobs - by NumericAll   **03/2022-06/2023**

The CodingJobs web development bootcamp is a 490-hour intensive training in full stack web development, over 70 days. The technologies I learned so far are HTML/CSS, Javascript, SEO, Bootsrap, ReactJS, MySQL, AJAX, PHP and Laravel. I also could learn the concepts for responsive web design and User Experience.

/skills

- **Frontend:** React, Next.js, Vite, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

- **Version Control:** Git, GitHub, Bitbucket

- **Tools & Libraries:** Storybook, Radix-UI, Figma

- **Project Management:** Azure, Jira, Confluence

- **Methodologies:** Agile, Cross-functional collaboration

- **Backend:** Ruby on Rails, PHP

- **Soft skills:** Collaborative, Adaptable, Communicative, Active listening, Creativity

/languages

- **portuguese**
  (native)
- **english**
  (full working proficiency)
- **french**
  (elementary proficiency)
- **spanish**
  (elementary proficiency)
